VIRTUES OF THE WEEK

Flexibility: is being open to change. It means not always having to have your own way. It is being open to the opinions and feelings of others. With flexibility, you are willing to change your mind. If something doesn't work, you try a new way. Flexibility is making changes for the better.

Patience: is quiet hope and trust, expecting things to turn out all right. Patience is being calm and tolerant when difficult things happen. It means showing acceptance when you or others make mistakes. Patience is doing something now so that later it will bear fruit, like planting a seed and waiting for it to grow. Patience is a commitment to the future.
